DUBAI – A MARKET THAT PROMISES SUCCESS

The ideal platform for your business

The most important plant fair in the Gulf region, IPM DUBAI, and the simultaneously held WOP DUBAI (World of Perishables) offer the ideal platform for your business from **November 10 to 12, 2020**. In November 2019 the 14th IPM DUBAI took place simultaneously with WOP DUBAI, the leading trade fair for the marketing of fresh goods in the Middle East. Together, both fairs counted more than **5,100 trade visitors** who were convinced by the products and services of 205 exhibitors from 35 countries. In addition to fair booths from Bulgaria, China, France, Greece, Indonesia, Italy, Japan, Moldova, Morocco, Rwanda, Taiwan, there were also promoted joint participation booths from Poland and Ukraine.

With their oil and gas resources, the seven United Arab Emirates are among the world's richest countries and financially most powerful investors. Thanks to its transport infrastructure, Dubai serves as the trade hub that satisfies the existing demand in the Middle East, Africa and Indian Sub-continent.

Awarding the Expo 2020 to Dubai and the goal of making the emirate a "green paradise" are providing for investments in the billions of dollars, along with outstanding export opportunities. Other major projects, such as hotel facilities and resorts, are shaping the area's future and will also drive the IPM and WOP forward, as the demand for horticultural products and horticultural technology remains high.

Take advantage of the comprehensive overview of current market trends and generate new customers and agents.

85 %

of the visitors would visit the trade fair again

93 %

of the exhibitors were satisfied with gathering market information

FESTIVAL PROGRAM

- + 10th November - Exhibition
 - Trade Fair / Exhibition
